

## **Luke Storlie joins Argos Risk as Client Success Associate**

*Argos Risk Expands team to strengthen Client Success and Subscriber Engagement*

**MINNEAPOLIS – May 7, 2026** – As part of its continued growth and expanding subscriber base, Argos Risk, specialists in Third-Party Risk Intelligence Solutions, announced the hiring of **Luke Storlie** as a **Client Success Associate**, effective March 23<sup>rd</sup>, 2026.

Luke joins the Client Success and Revenue team under the leadership of **Lori Frank, Chief Executive Officer (CEO)** and **Kevin Sasser, Chief Revenue Officer (CRO)**. In this role, Luke will help ensure subscribers and partners receive consistent, high-quality experience across onboarding, renewals, and ongoing engagement.

Argos Risk continues to expand alongside growing industry demand for persistent third-party risk monitoring and actionable business intelligence that supports financial stability, compliance oversight, and cybersecurity awareness. As organizations increasingly adopt AR Surveillance™ to strengthen their Third-Party Risk Management (TPRM) and Governance, Risk, and Compliance (GRC) initiatives, Argos Risk is investing in additional resources to support long-term subscriber success.

“Luke brings a detail-oriented, subscriber-first approach that strengthens the experience our subscribers count on,” said Kevin Sasser, Chief Revenue Officer at Argos Risk. “As our subscriber community grows, it’s even more important that partners are well-supported, and all subscriber engagement stays consistent and proactive. With the addition of Luke, we will ensure subscribers get responsive support and a high-touch experience.”

Luke's addition reinforces Argos Risk's commitment to helping subscribers move beyond point-in-time vendor reviews to continuous, automated risk intelligence, delivering timely visibility into multi-dimensional risk signals across financial, cyber, legal, compliance, and adverse media categories.

### **About Argos Risk**

With a focus on serving the unique needs of financial institutions as well as commercial enterprises, Argos Risk is a premier provider of Third-Party Risk Intelligence Solutions. Argos Risk's **AR Surveillance**<sup>™</sup> offers an efficient, timely, and comprehensive approach to mitigating risk. Trusted by a wide spectrum of organizations, AR Surveillance—a proven SaaS solution—enables robust management of multi-dimensional risk, supporting financial health while strengthening compliance, cybersecurity, and ESG oversight.
